
Whether you need a Social Security card or a Social Security number printout, you must show the Social Security Agency documents to prove your Identity, Age, and U.S. citizenship or lawful immigration status.

Before going to a Social Security office, go to www.socialsecurity.gov. There, you will find a list of documents you must take to that office. This will save you time.

The parts of the Social Security website that offer the most relevant details include: • Documents You Need for a Social Security Card (www.socialsecurity.gov/ssnumber/ss5doc.htm); • Frequently Asked Questions (www.socialsecurity.gov/faqs); and • Get A Publication (www.socialsecurity.gov/pubs).	You may also want to take a look at the specific online fact sheets and publications that address the requirements for getting a printout or card. They include: • U.S. Citizen/Adult – Social Security Card and Number Printout (SSA Publication No. 05-10512); • U.S. Citizen/Child – Social Security Card and Number Printout (SSA Publication No. 05-10514); and • Non-U.S. Citizen/Adult – Social Security Card and Number Printout (SSA Publication No. 05-10515).

All documents submitted must be either originals or copies certified by the issuing agency. The SSA cannot accept photocopies or notarized copies of documents.
